ED notice to NDTV for FEMA violations of ₹4,000 crore

Press Trust of India
New Delhi, October 18

THE ENFORCEMENT DIRECTORATE (ED) has issued a show cause notice to private television news channel NDTV for alleged violations of the foreign law amounting to over ₹4,000 crore, the central probe agency said on Thursday.

"The investigation showed FEMA contraventions relating to receipt of foreign direct investment by NDTV to the extent of ₹1,637 crore and the other relating to overseas investments to the tune of ₹2,732 crore," the ED said

"The investigation showed FEMA contraventions relating to receipt of foreign direct investment by NDTV to the extent of ₹1,637 crore and the other relating to overseas investments to the tune of ₹2,732 crore," the ED said

and few others.

The companies alleged to have contravened the FEMA are NDTV Lifestyle Holdings (now Lifestyle and Media Holdings), South Asia Creative Assets, Astro Overseas and NDTV Imagine (now Turner General Entertainment Networks India).

The ED said the offences identified in respect of the first alleged contravention in the receipt of FDI pertains to "substantive contraventions of ₹319 crore by NDTV through contravention of press note 1 of 2005 and downstream investment of ₹138 crore without FIPB approval.

The remaining contraventions relate to delays under FEMA in respect of allotment of shares within permissible time limit of 180 days and delays in filing nomination with the RBI and reporting requirements," the agency said.

As part of the second violation that has been shown caused, the ED said "overseas investment made by the NDTV and offences of ₹582 crore relate to contravention of substantive provisions of FEMA and the remaining contraventions of ₹2,414 crore relate to delays in filing reports and other requisite information

before the RBI."

The total contravention identified under the latest notice is ₹4,369 crore.

The agency said it is further probing an instance of FDI received by the media group worth ₹725 crore, which only the cabinet committee on economic affairs (CCEA) was competent to clear (cases of FDI in excess of ₹600 crore).

"But, no CCEA approval was taken (by NDTV)," the ED added.

"FDI was projected as below ₹600 crore as part of larger conspiracy. While applying for FIPB approval, NDTV projected FDI as varying between \$130 million and \$160 million. Documents of FIPB section also projected FDI differently as ₹585 crore (₹130 million at the rate of ₹45 per dollar).

"Further, investigation on this aspect is continuing," the agency said.

He said nothing but his mission was obvious — watching for any hints of interference with the second round of voting in Brazil on October 28.

The war room, which will ramp up activity for the November 6 mid-term US elections, is the most concrete sign of Facebook's efforts to weed out misinformation.

With experts in computer science, cybersecurity and legal specialists, the centre is operating during peak times for the US and Brazil at present, with plans to eventually work 24/7.

The war room adds a human dimension to the artificial intelligence tools Facebook has already deployed to detect inauthentic or manipulative activity.

"Humans can adapt quickly to new threats," Gleicher said of the latest effort.

"We work to find and remove these actors." Facebook has been racing to get measures in place and began operating this nerve centre — with a hastily taped 'WAR ROOM' sign on the glass door — for the first round of the presidential vote in Brazil on October 7.

It didn't take long to find false information and rumours being spread which could have had an impact on voters in Brazil. "On the election day, we saw a spike in voter suppression (messages) saying the election was delayed due to protests. That was not a true story," said Samidh Chakrabarti, Facebook's head of civic engagement.

Chakrabarti said Facebook was able to remove these posts in a couple of hours before they went viral. "It could have taken days."

tive offers and accounted for 17% share of the sales.

Flipkart in a statement said the company "pushed the boundaries on many fronts and hit some of our biggest ever numbers during its Big Billion Days (BBD)."

"We maintained a clear leadership in deep-penetrated and high ASP categories," it added.

As per the RedSeer report, the fashion and smartphone verticals grew by 78% and 70%, respectively.

However, consumer elec-

tronics grew by only 45% despite large invest-

ments by both players in supply chain and affordability initiatives like debit card EMIs, it added.

RedSeer said its report is based on interview with experts from supply chain, banking ecosystem and brands, sellerviews, customer surveys and other research.

The report said Day 2 of the five-day sale was the biggest in terms of gross merchandise value (GMV) as it saw the launch of multiple new exclusives in mobile phones and offers on other platforms as well.

After the second day, the growth of GMV stalled a bit, with last three days accounting for only 42% of sales compared to 60% in the first two days, it added.
