Oil imports rise in Nov on high demand

SUKALP SHARMA
New Delhi, December 1

INDIA'S CRUDE OIL imports in November rose sequentially as the country moved to a period of high petroleum consumption, with the festive season and the end to the autumn refinery maintenance season, preliminary estimates of ship tracking data showed.

Amid robust import volumes from top supplier Russia, India's Iraqi oil imports surged by nearly 25% sequentially in November. Oil imports from Saudi Arabia, on the other hand, declined by around a fifth.

According to ship tracking data provided by energy intelligence and analytics firms Kpler and Vortexa, India imported 4.5 million barrels per day (million bpd) of crude in November, around 3% more than the volumes imported in October.

India is the world's third-largest consumer of crude oil and depends on imports to meet over 85% of its requirement.

The country has a refining capacity of a little over 5 million bpd. Oil imports from Iraq in November are pegged at around 1 million bpd, up from around 0.8 million bpd in October. Iraq is currently India's second-largest supplier of crude oil, behind Russia.

Prior to the war in Ukraine, Iraq was at the top of the table

India imported 4.5 million barrels per day of crude in Nov.

of India's sources of crude oil, but was dethroned by Russia as Indian refiners started lapping up Russian oil when Moscow began offering it at a discount to international prices.

While most of Russian oil bought by Indian refiners is purchased on spot basis, India mainly relies on West Asian oil suppliers like Iraq and Saudi Arabia for most of its term volumes. Between the two oil heavyweights, Indian refiners have been preferring Iraq, as its oil has been relatively cheaper than Riyadh's.

In November, Indian refiners imported a total of around 0.7 million bpd of oil from Saudi Arabia, down over 20% from October. Saudi Arabia remains New Delhi's third-

biggest supplier of crude oil. "Iraq is cheaper than Saudi Arabia, hence India maintains stable levels of Iraqi crudes but has cut down on Saudi imports," Kpler's lead crude analysts Viktor Katona said.

As for India's Russian oil import volumes in November, Kpler's estimate stands at around 1.7 million bpd, while Vortexa pegs the volume at around 1.5 million bpd. In October, oil imports from Russia were around 1.6 million bpd. Preliminary volume estimates based on cargo data recorded by different agencies can vary slightly depending on the methodology employed.

Notwithstanding the slight difference in volume estimates, analysts at both firms said that Indian refiners seem unwilling to cut down on Russian oil imports, even as discounts offered by Moscow's oil firms have eroded in recent months.

India to import oil from Venezuela after three years

SUKALP SHARMA
New Delhi, December 1

WITH THE United States (US) easing sanctions on Venezuela, India's crude oil imports from Caracas are set to resume after three years with private sector giant Reliance Industries Ltd (RIL) booking three tankers scheduled to load oil from the Latin American country in December and January 2024, as per shipping fixtures shared by trade sources.

Private sector refiners RIL and Nayara Energy (NEL) were regular buyers of Venezuelan crude prior to imposition of US sanctions on Caracas in 2019. Following the sanctions, oil imports from Venezuela stopped.

According to data from commodity market analytics firm Kpler, India last imported Venezuelan crude in November 2020. Venezuela was New Delhi's fifth-largest supplier of oil in 2019, providing close to 16 million tonnes of crude to Indian refiners, as per India's official trade data.

In October this year, Washington eased sanctions on Venezuela's oil sector, authorising oil exports without limitation for six months. Venezuela, a member of the Organisation of the Petroleum Exporting Countries (OPEC) has the largest proven oil reserves in the world.

It has reportedly been offering steep discounts to Chinese independent refiners, who have been its biggest buyers of oil through the sanctions. However, recent reports suggest the discounts have narrowed considerably in recent weeks due to the easing of sanctions and other buyers now willing to pick up Venezuelan oil. Caracas appears eager to sell its crude in other major markets and is likely offering discounts to willing buyers.

Shipping fixtures show

that three super tankers, each capable of carrying up to 270,000 tonnes of crude oil, have been chartered by RIL. Two are scheduled to be loaded over the next week, while one is scheduled for early January. In shipping industry parlance, a "fixture" indicates that the charter of a ship has been finalised. An RIL spokesperson did not respond to a request seeking comment on the matter.

In November, Petroleum Minister Hardeep Singh Puri told reporters that India would be willing to buy Venezuelan oil if it was available at a discount. India is the world's third-largest consumer of crude oil and depends on imports to meet over 85 per cent of its requirement.

Given the volatility in the oil markets over the past nearly two years, the government has maintained that India will buy from wherever it can get cheaper oil. Irking many in the West, New Delhi significantly ramped up Russian crude imports as Moscow offered deep discounts after its February 2022 invasion of Ukraine.

Industry watchers believe that with India resuming oil imports from Venezuela, imports by Chinese refiners could be adversely impacted.

GDP data, FII return spur Nifty to new high

FII's bought a net \$2.3 billion in Indian equities in November, after selling a net \$5 billion in September and October. DIIs bought a net ₹14,254 crore during November.

"The broader market outperformed, with mid- and small-caps displaying resilience and no signs of fatigue. Investors remain optimistic about government spending and heightened consumption, driven by easing inflation, propelling growth in H2FY24. Oil prices continued to move on the downside despite the Opec+ supply cut. The eagerly awaited exit polls also contributed positively, boosting investor sentiments towards the current Union government," said Vinod Nair, Head of Research at Geojit Financial Services.

A total of 2,109 stocks advanced on the BSE, while 1,638 declined. All BSE sectoral indices except auto closed in the green, while telecommunication closed flat. Oil & Gas, power, and energy were the biggest weekly gainers, rising over 5% each.

Among broader indices, the BSE midcap and smallcap also rose 0.96% and 0.86% to close at 34,587 and 40,566, respectively.

The market cap of BSE-listed firms rose ₹2.07 trillion to ₹337.7 trillion.

Rate cut likely only after LS polls

ACCORDING TO DATA from the Centre, India's Q2FY24 gross domestic product (GDP) beat all estimates — including that of RBI's 6.5% forecast — by a wide margin to grow at 7.6% in real terms, led by growth in manufacturing and investment segments.

Gupta said HDFC Bank expects full year GDP to grow 6.8% as against RBI's forecast of 6.5%. She added that while the inflation print in October was below 5%, inflation figures of November and December will be higher as "POT" inflation, which includes potatoes, onions and tomatoes, have started rising in November, primarily led by rise in onion prices. Further,

HUL splits beauty and personal care business

HE TOO WILL be part of HUL's management committee. The company also said that it was appointing former revenue secretary Tarun Bajaj as an independent director.

The management structure that HUL is putting in place, said sector analysts, would mirror that of parent Unilever, which too has beauty & well-being and personal care, as separate divisions. Unilever has also identified digital as a key pillar of its business, with digital commerce contributing 15% of its total revenue, the company said in a recent earnings call.

"Beauty and personal care continues to be a source of value creation for us. However, the business model, innovation rhythm and competitive landscape for both, B&W and PC, are diverging," CEO and managing director Rohit Jawa said on Friday.

"The transition will allow us to bring more focus, and

leverage our strong portfolio in both businesses," Jawa said.

Dhillon, currently India skin care head, joined HUL in 2006. Between 2015-16, she led the TRE Semmè business as global brand director, based out of London.

Chandrasekhar, who joined HUL as a management trainee in 1998, is currently global vice-president and head of oral care and skin cleansing for developing and emerging markets. He has worked across Unilever businesses in South Asia, Southeast Asia, Africa, and the Middle East.

India offers to host COP meet in 2028

WHILE RECALLING THE global climate initiatives India had launched — International Solar Alliance, Coalition of Disaster-Resilient Infrastructure, and Lifestyle for Environment Campaign — and climate-related decisions like renewable energy tripling and Global Biofuels Alliance taken by the G20 summit under its presidency, Modi made another offering to the world.

He said India's recently launched Green Credits Initiative is something that the entire world should adopt. The programme launched by the environment ministry is a way of incentivising environmental actions by offering green credits for projects that help the environment in anyway. In its first round, activities in water conservation and afforestation would be acknowledged.

Modi participated in a separate programme at the COP28 meeting, focused on this Green Credits Initiative.

"This is an alternative market-based mechanism that prioritises public participation in environment positive projects. It is a pro planet, proactive and positive initiative," Modi said.
